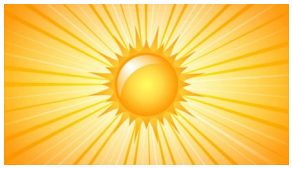
Ask Me About

Week of 11/5

- How we introduce a book. We know we need to tell you the title, what the book is mostly about and maybe an interesting fact from the book to get you interested before we read.

- How we use spaces between our words when we write. We know it helps make our writing more readable.
- We have been writing all about our pumpkins and are publishing our first book about them! Just wait until you see my diagrams!
- All the math games we played this week! We've had so much fun practicing our numbers and facts up to 5.
- Ask me about "Walk the Plank", "Mr. Equal" and "Trash".
- The shapes we've learned! We've learned circle, square, rectangle, triangle and even rhombus!
- The sun! We learned that the sun provides not only light, but heat! We learned that different surfaces heat faster than others. We also learned that the suns rays even make it through the clouds.



- We celebrated Veterans Day. We had an assembly and met some veterans, we read a book about them and even had a veteran visit our class! Grayson's dad is a Marine and came to visit and tell us all about what he does. Thank you, veterans!

*Reminder: There is no school on Monday 11/12 in observance of Veterans Day.
