

Ask Me About

Week of 1/27

- Reading nonfiction books! We are reading books that teach and we are learning so much!
- How we preview a nonfiction book. We look through all of the pictures and talk about what we notice, what we wonder and what we already knew.
- Writing “How To” books! Just like we’re reading teaching books, we’re writing them too!
- How to write a “How to” book! We tell what to do in-steps, number the steps and make a picture to match each step.
- We got to make nachos using Mrs. Burt’s “How to Make Nachos” book! They were delicious!!
- Shapes making shapes. We learned that when we put shapes together they can make new shapes! 2 squares together can make a rectangle. 2 triangles together can make a square or a rectangle and 2 rectangles can make a square or a rectangle.
- Groundhog Day! We learned about Groundhog Day and what it means to us. We made a prediction of our own, graphed it and found that most kids thought that Phil would see his shadow.
- We also learned about groundhogs. Did you know they whistle? They live in a burrow that has a bedroom AND a bathroom! Smart animals!

Have a great weekend and enjoy the Superbowl!!
