

Ask Me About

Week of 11/13

- How we introduce a book. We know we need to tell you the title, what the book is mostly about and maybe an interesting fact from the book to get you interested before we read.

- How we use spaces between our words when we write. We know it helps make our writing more readable.
- How we are starting to use mostly lowercase letter when we write. We know we start a sentence with a capital letter, then use lowercase letters for the rest.
- All the math games we played this week! We've had so much fun practicing our numbers and facts up to 5.
- The shapes we've learned! We've learned circle, square, rectangle, triangle and even rhombus! Ask me how I used them to make a decoration for our Thanksgiving feast!
- Weather! We've been learning to track the weather. We learned what a thermometer is and how it works. We've been tracking the weather conditions too.
- My wind gauge! We made a wind gauge to determine whether it's a breezy day, a windy day or a gusty, blustery day!

Letters of the week:

v-van-/v/

W-wind-/w/

Students learned the proper letter lower case formation of the letters as well as the sound those letters make. **Please practice letter sounds at home!**

Letters taught this year: T, b, f, b,c, o, m, n, i, u, a, g, d, s, p, j, v, w

Snap words introduced this week : in, is, it

Snap words taught this year: I, a, the, is, my, we, see, and, by, like, it, look, you, me

We are also working on listening to the beginning sounds of words, clapping syllables, identifying words that rhyme, and generating rhymes. You can practice these skills at home as well as use the following websites for fun.
